IT'S A NEW ERA AT LAKOTA

In 2018, we received the NATM award for most horse trailers sold in the industry. Although this was a huge accomplishment and solidified what we already knew (that Lakota is America's favorite horse trailer), we were not satisfied with just coasting off of our previous successes.

Our team went back to the drawing board, completely redesigning our 2021-2022 Bighorn Editions with a stronger structure, new extrusions, a stouter slat, a sleek new graphics package, and numerous other upgrades and improvements. The finished product was so original, we realized that a NEW ERA had officially begun at Lakota.

Our aluminum frame construction, residential all wood cabinetry, LED exterior lighting, and countless luxury amenities make the Bighorn the best equipped horse trailer for the money in its class. With **unrivaled standard features**, a **more residential feel**, and **endless floor plans/options** to choose from, the 2021-2022 Bighorn Edition raises the bar for high-end luxury horse trailers.

See the Bighorn for yourself at your Lakota Dealer and join us in beginning this **NEW ERA** at Lakota!

All our best,

Tim Schmucker

The image shows the interior of a Lakota horse trailer. The space is well-lit with recessed ceiling lights and a central ceiling fan. The kitchen area features a granite countertop with a stainless steel sink and faucet. A television is mounted on the wall, displaying two horses. Below the TV is a small digital display and a storage compartment. To the left, there are wooden stairs leading to an upper level. The walls and cabinets are finished with wood paneling. The floor is made of light-colored wood planks.

Lakota is proudly located in the Heartland of America. At Lakota, we incorporate American Values, toughness, and innovation into every trailer we build, and it shows. There's no better way to explore this great country than in a Lakota!
